

The RIVERHURST OIL AND GAS CO., LTD.

RIVERHURST, SASK.

CAPITAL \$50,000.00.

President, N. R. Jackson, Vice President, S. W. Fellows,
Riverhurst. Riverhurst.

Secretary-Treasurer, H. C. Ingram, Moose Jaw, Sask.

THE RIVERHURST OIL AND GAS COMPANY, LTD.

WE have a charter from the Dominion Government authorizing us to drill for natural gas and oil and market same.

Our capitalization is \$50,000 which can be increased when necessary and by consent of the shareholders.

Our head office is at Riverhurst, Sask.

Our Directors for the current term are:

President—Norman Jackson, Riverhurst, Sask., Farmer.

Vice President—S. W. Fellows, Riverhurst, Garage Owner.

Sec. Treas.—H. C. Ingram, Moose Jaw, Sask., Barrister.

Director—J. C. McLean, Riverhurst, Sask., Butcher.

“ J. A. Bryce, Riverhurst, Sask., Farmer.

“ Oscar Hurtig, Riverhurst, Sask., Farmer

“ Geo. Ewen, Riverhurst, Sask., Farmer.

“ Chris. Olmem, Riverhurst, Sask., Well Driller.

“ D. B. Annis, Riverhurst, Sask., Agent.

“ A. C. Wynkoop, Lucky Lake, Sask., Farmer.

“ S. S. Kerr, Lawson, Sask., Merchant.

Our holdings consist of about 1500 acres of leases on what we believe to be an oil structure and natural gas in commercial quantities.

On our property we have a standard derrick, National drilling outfit, building, tools, casing, etc.

We have developed our property to the extent of drilling to the depth of 527 feet during the summer of 1926.

In drilling to this depth we tapped an exceedingly strong flow of natural gas of about 240 pounds pressure. Such a pressure at that depth assures us that by drilling deeper an unlimited supply will be encountered.

The gas is the same as used extensively in Medicine Hat for manufacturing purposes and elsewhere in Alberta for, heat, light and power purposes.

We have enough gas escaping from our present well to supply the Village of Riverhurst and pay a dividend on our capitalization

We are situated within reasonable pipe line distance of Moose Jaw and Regina which will provide a market as soon as we can develop our property to such a commercial extent.

The above does not take into consideration our prospects for oil, and they are better than any discovered in Saskatchewan to date. We are situated handy to rail head which is a big item in marketing oil products and reflects heavily in money to be made in same.

We have one of the best oil well drillers in the business available to carry on the drilling for us.

We have the only natural gas of any extent discovered in Saskatchewan to date.

We are making an honest effort to develop an industry that will be of far reaching consequences to this Province.

Read the first five words in the previous sentence again:

—ARE MAKING AN HONEST EFFORT—

and think what it means.

It means that your money will be spent for drilling purposes and you know a large percentage of oil companies do not reach that stage. The money is spent for promotion and heavy overhead expenses. The public lose and the business gets a bad name.

You will get a real run for your money with us.

The Directors of the Company are all well known and permanently reside in this district.

They are fully convinced there is a large body of natural gas and indications of oil on the Company's holdings awaiting development.

The development of oil and gas in Western Canada is now attracting large sums of money.

By placing your money with us, you can rest assured it will be used to the best advantage and that we are making an honest effort to develop those wonderful, money-making resources, namely, natural gas and oil.

We want your whole-hearted support and that means we want you to invest what you can afford. Do not go into this in a half-hearted way.

We are placing \$25,000 worth of stock on the market, the money to be used for further development. The natural gas we now have has taken our stock out of the highly speculative stage and from now on it is but the matter of drilling enough to fully develop our field.

Do not invest \$25.00 if you can afford \$100.00.

Do not invest \$100.00 if you can afford \$250.00.

Take a \$250.00 block if possible. Our issue of stock is small and will soon be off the market. Act Now.
